DISCIPLINE

We believe that the first step to good discipline is setting guidelines for children to follow. When a child is having a difficult time following directions or treating others or equipment with respect, developmentally appropriate guidance techniques are used.

These techniques are as follows:

- a. Positive reinforcement: the child will be encouraged when he/she is demonstrating acceptable behavior.

- b. Redirection: the child is redirected to another activity and then given another opportunity to try again at another time.
- c. When... Then Statements: A statement in which the child is encouraged to accomplish something before going to something else. Sample “when you are finished picking up the blocks, then you can go outside.”
- d. “if...Then” Statements: A statement in which the child is encouraged to make a positive choice, Sample: “If you pick up the blocks, then you can go to the Dramatic Play area”
- e. Stop and Think- the child is told to stop immediately in the location of play, and think about what the teacher is saying make a good choice as to what he or she is to be doing by observing what are others are doing and think of better choices.
- f. Take a Break: separated from the group for a child-regulated period, One minute per child age. This technique is used only when a child is exhibiting temper tantrum type behavior or hurting self, others or equipment. When the child shows that he/she is ready to demonstrate acceptable behavior, the child is encouraged to join the rest of the group and try again.
- g. Teachers will always exhibit forgiveness and love when approaching discipline.
- h. **Corporal punishment, spanking, or yelling at children is forbidden! Discipline will not be associated with food , rest or toileting.**

C.K.C reserves the right to cancel services to that child. Termination of services will occur only if it is determined by the director that (a) the child’s needs could no longer be met, and the school has taken every known step to work with the child’s problem. In addition, (b) that an honest effort has been made by the school to work with the parents to resolve the issue at hand, and/ or communication between the school and parents has ceased or failed to get improvement. To maintain consistency among discipline and school policies, and our values, parents are asked to uphold the school rules.
